3. Add Customer Information

Adjust the important fields for the customers such as:
Address. and Tax Reg Number

The screenshot shows the NetSuite interface for a Credit Memo. At the top, it displays 'Credit Memo' with a search icon, followed by the memo ID 'CM4004JDPL10000' and the location 'CU26593'. An 'OPEN' button is visible. Below this, there are several action buttons: 'Edit', 'Back', 'Print', 'Refund', 'Proceed to E-Invoice', a file icon, a plus icon, and an 'Actions' dropdown menu. A 'Primary Information' section is partially visible. A modal dialog box titled 'Generate & Verify E-Invoice' is open in the foreground, prompting the user to 'Please choose Invoice Type'. The dialog contains three buttons: 'Normal', 'Debit', and 'cancel'.

4. Generate and Verify E-Invoice

After Creating the customer details, you can now easily run the invoice and store it in your file cabinet.
